10-unit freestanding mailbox system Design BASIC 385P-7016-SP with doorbell-intercom unit including side cladding & rain canopy - horizontal mailboxes - Anthracite grey RAL 7016 | RAL 7016 Anthracite grey, fine texture, matt | Left | with 10 mailboxes

Product number 385P-7016-10S-SP-L

Product description

Freestanding mailbox system BASIC 385P with bell/intercom unit on the left for 10 households – RAL 7016 Anthracite grey – narrow version

The freestanding BASIC 385P mailbox system for 10 households combines 10 individually usable mail compartments with an integrated bell function box. This consolidates mail reception, doorbell buttons and the provision for a compatible door intercom system into a robust, visually unified entrance solution for larger multi-family houses, residential complexes and commercial properties. In this variant, the bell/intercom unit is positioned to the left of the mailbox system.

The mailboxes are made of galvanised steel and powder-coated in RAL 7016 Anthracite grey fine-textured matt. A close-fitting side cladding with rain hood and integrated rain drainage channels support weather protection. The solidly manufactured support posts made from anodised aluminium profile are also powder-coated in RAL 7016 Anthracite grey and form an especially stable, durable base for the freestanding unit.

Each of the 10 mail compartments has approx. 12 litres volume. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait format. A noise-damping rubber lip reduces the impact of the insertion flap. Mail retrieval is from the front; the access doors open from left to right. Each mailbox is supplied with two keys bearing a key number and a replaceable nameplate beneath the insertion flap.

The advantages of the BASIC 385P mailbox system at a glance

Integrated bell function box on the left

The unit combines 10 mailboxes with 10 stainless steel bell push buttons and a speaker aperture with universal adapter. This creates a central, tidy solution for mail and visitor communication.

Solid aluminium support posts

Solidly manufactured, anodised aluminium profiles form the stable base of the freestanding unit. The powder-coated construction combines high load-bearing capacity with a durable design for outdoor use.

DIN C4 insertion with 12 litre volume

The mailboxes each offer approx. 12 litres of mail volume. The 35 × 265 mm insertion opening accepts DIN C4 items in portrait orientation without larger envelopes being unnecessarily creased.

Prepared for door communication

The speaker aperture with universal adapter is prepared for many commercially available flush-fit speakers.

Robust BASIC quality in RAL 7016 Anthracite grey

Galvanised steel, stainless steel components, solid aluminium support posts and German manufacture produce a resilient mailbox system for long-term use at the property entrance.

Equipment of the BASIC 385P mailbox system

Mailbox system

Number of mailboxes 10 individually usable mail compartments
Mailbox dimensions 300 × 110 × 385 mm (W × H × D) per compartment
Mail volume Approx. 12 litres per mailbox
Material Galvanised steel; side cladding and rain hood made of stainless steel V2A
Surface RAL 7016 Anthracite grey fine-textured matt
Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Standard Mailboxes compliant with DIN EN 13724

Bell and intercom unit

Bell function box Galvanised steel, powder-coated to match
Position Left
Bell push buttons 10 round stainless steel bell push buttons Type 4
Speaker aperture With universal adapter for commercially available flush-fit speakers
Nameplate Impact-resistant and shockproof design

Solid aluminium support posts

Support posts Solidly manufactured, anodised aluminium profile
Coating Powder-coated in RAL 7016 Anthracite grey
Mounting options Either screw-mounted or cast into concrete
Screw-mounted Support posts selectable in 1200 or 1600 mm
Cast into concrete Support posts selectable in 1600 or 2000 mm
Delivery condition Support posts and mailbox system delivered split for assembly
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on the bell/intercom unit

The universal adapter is suitable for many commercially available flush-fit speakers. Intercom systems or flush-fit speakers, power supply and cabling are not part of the described basic equipment and must be provided to suit the planned system.

Mounting on a foundation

For screw mounting a level and adequately load-bearing foundation is required. The fastening materials must be selected to suit the foundation, the unit’s weight and the local installation situation.

Mounting by casting into concrete

For the cast-into-concrete version the extended aluminium support posts are anchored plumb in a suitably dimensioned concrete foundation. Foundation size and embedment depth must be matched to ground conditions, unit dimensions and local loads.

Note on weather protection

The rain hood, close-fitting side cladding and rain drainage channels support weather protection. Mail items must be fully inserted so that the insertion flaps can close completely. Under extreme weather conditions, slight moisture ingress may occur despite compliant construction.

Product properties

Material	Steel, galvanised, Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Series	BASIC
Number of bell push buttons	10 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey
Removal of mail	On the front
Number of boxes	with 10 letterboxes
