Product description

4-unit stainless steel surface-mounted mailbox Design BASIC Plus 382XA AP - stainless steel V2A brushed

High-quality surface-mounted mailbox for 4 households, Made in Germany by Briefkasten Manufaktur.

The complete surface-mounted mailbox system is made from brushed stainless steel V2A. The very high-quality workmanship and the well thought-out concept make this mailbox system one of our bestsellers. A drip edge for optimal water protection, a continuous rubber lip for quiet mail insertion, a solid interchangeable nameplate, a practical mail retention bracket and a very robust lock characterise this surface-mounted mailbox system.

The mailbox systems of the BASIC Plus collection are characterised by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The design has been developed by our own engineers with a focus on high flexibility and modularity, easy spare-part installation and uncomplicated self-installation. Spare parts are directly available for all BASIC Plus systems.

Thanks to the design, self-installation is straightforward. The mailbox system is prepared for uncomplicated complete mounting; there is no need for complex wall mounting of individual boxes.
