Product number 215-UP-6-SP-DB-100-L

Product description

6-unit design recessed mailbox GOETHE UP - RAL colour of your choice - DoorBird video intercom left

High-quality 6-unit recessed mailbox with a seamlessly integrated DoorBird IP video door station D2100E in a flush-mounted design. The DoorBird IP video door station D2100E is the smart solution for your entrance door. The IP video door station can be operated as a standalone unit or integrated into an existing smart home platform. Existing conventional installations such as a door gong or an electric door and gate opener can also continue to be used with DoorBird and controlled via the app.

The dimensions of the individual box allow a capacity of approx. 16 or 32 litres; the large aperture guarantees that DIN-C4 envelopes and magazines, or mail accumulated during several days' absence, are not creased. The innovative push-key lock is hidden unobtrusively inside the mailbox. The key is simply inserted into the available opening (no turning necessary) and the door opens. The arrangement of the lock means the retrieval door is designed to prevent your mail from falling out towards you. Thanks to the water-drip edge, the mail inside is optimally protected from the weather. The flap is equipped with high-quality hinge dampers, ensuring quiet closing and preventing annoying rattling caused by weather conditions.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy replacement-part assembly and straightforward self-installation. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-installation is uncomplicated.

Protected utility model pursuant to DPMA file number DE: 20 2021 101 679.5

- 6-fold recessed mailbox made entirely of stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (BH 400x400mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in the RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and retrieval are from the front. Insertion flap with high-quality hinge dampers for very quiet mail insertion.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit in without being folded.
- Retrieval doors open from top to bottom. This prevents the mail from falling out towards you.
- Plexiglas nameplate for name inscription and 2nd Plexiglas nameplate for advertising Yes/No per unit.
- Functional box (BH 400x400mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in the RAL colour of your choice.
- Optional house number with energy-saving LED illumination approx. 70–100 mm high possible (depending on the number of characters).
- Plaster cover frame made of 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Incl. DoorBird IP video door station D2100E + multi-tenant module MTM18A with illuminated doorbell buttons or IP video door station D3100E with 7-inch display.

Important information

Preparation for camera or intercom

The intercom systems must be connected by a qualified electrician. For planning, installation and commissioning, please consult the qualified electrician of your choice.

Protection against water

For optimal protection of your mail against water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Mail that is not fully pushed in allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a valid reason for complaint.
