9er Design flush-mounted mailbox GOETHE UP - RAL colour of your choice - DoorBird video intercom, left-hand | Left | without newspaper compartment | 100mm depth | DoorBird | with 9 letterboxes

Product number 215-UP-9-SP-DB-100-L

Product description

9-unit recessed mailbox GOETHE UP - RAL colour of your choice - DoorBird video intercom left

High-quality manufactured 9-unit recessed mailbox with a seamlessly integrated DoorBird IP video door station D2100E in a flush-mounted design. The DoorBird IP video door station D2100E is the smart solution for your entrance door. The IP video door station can be operated as a standalone unit or integrated into an existing smart home platform. Existing classic installations such as a door chime or an electric door/gate opener can also continue to be used with DoorBird and be controlled via the app.

The dimensions of each compartment allow a capacity of approx. 16 or 32 litres; the large aperture guarantees that even DIN C4 envelopes and magazines, or post accumulated after several days' absence, will not be creased. The innovative push-key lock is invisibly concealed inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. Thanks to the position of the lock, this mailbox is designed so that the retrieval door prevents your post from falling out. The internal water runoff edge offers optimal protection for the post against the weather. The insertion flap is equipped with high-quality hinge dampers, ensuring quiet closing and preventing annoying rattling caused by weather conditions.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy spare-part installation and uncomplicated self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is straightforward.

Protected utility model under DPMA file number DE: 20 2021 101 679.5

- 9-compartment recessed mailbox completely made of stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (BH 400x400mm) made of stainless steel 1.4016 (magnetic, corrosion-resistant stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Letter insertion and retrieval are from the front. Insertion flap with high-quality hinge dampers for very quiet posting of mail.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 (landscape), so large letters fit without bending.
- Retrieval doors open from top to bottom, preventing your post from falling out.
- Plexiglas nameplate for name labelling and a second Plexiglas nameplate "Advertising Yes/No" per tenant.
- Function box (BH 400x400mm) made of stainless steel 1.4016 (magnetic, corrosion-resistant stainless steel), powder-coated in RAL colour of your choice.
- Optional house number with energy-saving LED illumination approx. 70–100 mm high possible (depending on the number of characters).
- Plaster cover frame made from 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Includes DoorBird IP video door station D2100E + multi-tenant module MTM18A with illuminated doorbell buttons or IP video door station D3100E with 7-inch display.

Important information

Camera or intercom preparation

Intercom systems must be connected by a qualified electrician. For planning, installation and commissioning, please contact the electrician of your choice.

Water protection

To achieve optimal water protection for your post, the mailbox or mailbox system should, where possible, be positioned under a canopy.

Items of mail are only protected from water if they are placed completely inside the box and the insertion flap is closed. Partially inserted post allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress does not constitute grounds for a complaint.
