Product number 215-UP-10-SP-DB-100-L

Product description

10-unit design recessed mailbox GOETHE UP - RAL colour of your choice - DoorBird IP video door station left

High-quality manufactured 10-unit recessed mailbox with a seamlessly integrated DoorBird IP video door station D2100E in a flush design. The DoorBird IP video door station D2100E is the smart solution for your entrance. The IP video door station can be operated as a standalone unit or integrated into an existing smart home platform. Existing classic installations such as a door gong or an electric door and gate opener can also continue to be used with DoorBird and be controlled via the app.

The dimensions of the individual compartment provide a capacity of approx. 16 or 32 litres; the large aperture ensures that DIN C4 envelopes and magazines — or post received after several days' absence — do not come out creased. The innovative push-key lock is hidden invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning necessary) and the door opens. The arrangement of the lock and design of this mailbox ensure that the retrieval door prevents the post from falling out towards you. The internal post is optimally protected from the weather by the water-drip edge. The insertion flap is equipped with high-quality hinge dampers, ensuring quiet closing and preventing disruptive rattling caused by weather influences.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy spare part assembly and uncomplicated self-installation. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-installation is straightforward.

Protected utility model (DPMA file number DE: 20 2021 101 679.5)

- 10-fold recessed mailbox completely made of stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (W x H 400 x 400 mm) made of stainless steel 1.4016 (rust-resistant magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Letters are inserted and retrieved from the front. Insertion flap with high-quality hinge dampers for very quiet posting of mail.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit in without bending.
- Retrieval doors open from top to bottom. This prevents the post from falling out towards you.
- Plexiglass nameplate for name inscription and a second nameplate for advertising Yes/No per unit.
- Function box (W x H 400 x 400 mm) made of stainless steel 1.4016 (rust-resistant magnetic stainless steel), powder-coated in RAL colour of your choice.
- Optional house number with energy-saving LED illumination approx. 70–100 mm high possible (depending on the number of characters).
- Plaster cover frame made of 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Includes DoorBird IP video door station D2100E + multi-tenant module MTM18A with illuminated doorbell buttons, or IP video door station D3100E with 7-inch display.

Important information

Camera or intercom provision

The intercom systems must be connected by a qualified electrician. Please consult the electrician of your choice for planning, installation and commissioning.

Water protection

To achieve optimal protection of your post from water, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This system is protected against ingress of water according to DIN EN 13724. Water ingress is not a reason for a complaint.
