Product number 385A-7016-11W

Product description

Wide surface-mounted mailbox system BASIC 385A for 11 households – RAL 7016 Anthracite grey

The BASIC 385A surface-mounted mailbox system for 11 households is a robust wall-mounted solution for apartment buildings, residential complexes and commercially used properties. The wider "W" configuration distributes the mailboxes across a multi-column front and keeps the overall system lower and more clearly arranged.

The mailboxes are made from galvanised steel and are powder-coated in RAL 7016 Anthracite grey fine texture matt. The close-fitting cladding with a weather hood combines the individual compartments into a coherent, modern surface-mounted system.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two numbered keys and an interchangeable nameplate beneath the flap.

The advantages of the BASIC 385A surface-mounted system at a glance

Weather hood and side panels

The weather hood and side panels combine the individual mailboxes into a closed surface-mounted system. The coordinated cladding provides a calm front and a neat finish at the façade.

DIN C4 mail slot and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) mailboxes each offer approx. 12 litres of volume. The 35 × 265 mm mail slot also accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear allocation of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail facilitates installation; fixing materials with screws and wall plugs are included in the described version.

Robust finish in RAL 7016

The anthracite grey fine-texture surface gives the system a modern appearance and protects the galvanised steel for daily use on the building. The system is manufactured in Germany by Briefkasten Manufaktur Lippe.
