Regendach 'DESIGNER'

Für Aufputz-, Zaun-, und Standbriefkästen der Kollektion Designer liegt ein Regendach bei. Dieses ist selbstklebend und nach erfolgreicher Montage oben auf dem Briefkasten aufzusetzen. Achten Sie dabei auf eine genaue Ausrichtung!

Stainless steel mailbox free-standing DESIGNER Style BIG ST-P powder-coated

High quality mailbox freestanding the brand Briefkasten Manufaktur. A real eye-catcher among the mailboxes. Clear lines and straightforward design are characterized by the designer Style Big. With a lot of volume and large throw-in flap for increased amounts of mail.

in the Edition ST-P with a flush design. The elegant rectangular standstill pillars are made of 2 mm stainless steel V2A 1.4301, powder-coated in RAL color and optionally equipped with a 10mm thick fuspa stick for screw mounting.

Our products have a high value, reliable functionality and their own identity. Made by Briefkasten Manufaktur.

- Designer stainless steel mailbox free-standing made of 2 mm stainless steel V2A, powder-coated in RAL color.
- no visible screw or rivet.
- Fronts side post-withdrawal door 350 mm x 300 mm, to open from top to bottom. Including 2 key with key number.
- Settling from the front, dimensions of the insertion: W 35 cm x H 6.3 cm, C4 across. Here, very large letters and newspapers fit in without kinking.
- **from now on with built-in damping elements, which let the throw-in flap slowly and quietly close.**
- water protection sheet inner.
- Optional name lettering, lasered approx. 10mm high.
- Optional house number label, lasered approx. 100mm high.
- The Plain stand columns consist of W 20 mm x D 100 mm stainless steel V2A 1.4301, powder-coated in RAL color for concreting or screw mounting.

Important information:

In order to achieve optimal water protection of your post, the mailbox or the mailbox system should be under a canopy if possible. If you set up this system completely freely, it is recommended to use a rain roof. Connected self-adhesive rain roof included.

The post is only protected from moisture and pollution when the flap is completely thrown and closed. In certain extreme weather conditions, water can still occur (according to DIN EN 13724 to 1ccm). This is not a reason for complaint.
