Design surface-mounted letterbox GRIMM - colour of your choice with preparation for camera and intercom system left | Left | Individualised preparation | ? Colour of your choice | Surface-mounted

Product number 562-AP-SPL-1-SF-IND

Product description

Design Mailbox GRIMM® – A Masterpiece of Mailbox Manufacturing

The Design Surface-Mounted Mailbox GRIMM combines modern design with top-notch craftsmanship – ideal for discerning builders and architects seeking an elegant solution for the integration of camera and built-in speakers. Manufactured from high-quality stainless steel and entirely "Made in Germany" by the Mailbox Manufacturer Lippe, this model represents durability, functionality, and stylish aesthetics. The powder-coated front panel made from 2 mm stainless steel V2A (1.4301) impresses with its timeless appearance and high corrosion resistance.

 Compatible with common manufacturers: LOXONE, Siedle, Busch-Jaeger, Gira, TCS, Legrand BTicino, Ritto, STR Elektronik, ELCOM, HHG, Comelit, Mobotix, HIKVISION and many more available upon request.

The **preparation for a camera** (not included) provides a secure foundation for modern video surveillance right at the entrance. A **preparation for built-in speakers** is also possible – optionally with a suitable universal adapter for various intercoms. This way, the mailbox can be perfectly adapted to your existing technology.

The GRIMM® mailbox is not only an aesthetic highlight but also excels in functionality and quality. Thanks to the innovative push-key lock, the mailbox can be easily and comfortably operated with one hand. Open the door with a push and close it without the use of a key. The lock is optimally protected from weather influences. Additionally, the mailbox features an intelligent retrieval system: the door opens from top to bottom, ensuring that the mail remains securely in the box and does not fall out. The insertion of mail is also comfortable from the front, with high-quality axle dampers ensuring a gentle closing of the mail slot. The GRIMM is particularly unique due to its double-box system: the surface-mounted body made from powder-coated stainless steel V2A (1.4301) is installed first, while the panel can be fitted after the completion of the construction work. The recessed panel also offers optimal protection against rain and other environmental influences.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creasing. The GRIMM® mailbox impresses with its durable quality, timeless design, and thoughtful functionality.

- High-quality mailbox entirely made of stainless steel for surface mounting.
- Front panel made from 2 mm stainless steel V2A 1.4301, powder-coated in a desired colour.
- Quality manufacturing – Made in Germany by Mailbox Manufacturer Lippe.
- Preparation (built-in speaker not included) for intercom systems available. Optionally with universal adapter for all common built-in speakers.
- Optional preparation (camera not included) for a camera.
- House number approximately 70mm high (max. 3 digits) with energy-saving LED lighting 12V DC approx. 50mA / 1W, white.
- Optionally replaceable nameplate made of stainless steel with laser engraving or acrylic nameplate.
- 8-12V DC short stroke doorbell button with LED ring illumination (Blue, White, Red or Green). The illumination of the doorbell buttons cannot be powered via the control unit. It must be connected to an additional power supply 8-12 V DC.
- Optional is an 8-12V DC short stroke light button with pictogram.
- Includes EVN LED power supply / transformer IP65 12V/DC 0.1−4W for the LED lighting (house number, doorbell button and nameplate if chosen).
- Innovative push-key lock including 2 keys with key number, convenient locking without a key, optimally protected from weather.
- The retrieval door with opening limiter opens from top to bottom to prevent mail from falling out.
- Frontal insertion with high-quality axle dampers for very quiet insertion of mail.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection through recessed panel.
- Double-box system: Ideal for surface mounting. The panel can be comfortably installed after the construction work is completed.
- Surface-mounted box made from 2mm stainless steel V2A 1.4301, powder-coated.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should ideally be located under a canopy.

The mail is only protected from water if it is fully deposited in the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for complaint.
