Product description

12-unit 6x2 Stainless Steel Surface-mounted Mailbox Design BASIC Plus 382XA AP - Brushed Stainless Steel V2A

High-quality surface-mounted mailbox for 12 tenants made in Germany by Briefkasten Manufaktur.

The complete surface-mounted mailbox system is made from brushed stainless steel V2A. The very high-quality workmanship and the well-thought-out concept make this mailbox system one of our top sellers. A rain-drip edge for optimal water protection, a continuous rubber lip for quiet insertion, a solid replaceable nameplate, a practical mail retention bar and a very robust lock characterise this surface-mounted mailbox system.

The mailbox systems of the BASIC Plus collection are distinguished by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy fitting of spare parts and straightforward self-installation. Spare parts for all BASIC Plus systems are readily available.

Thanks to the design, self-installation is straightforward. The mailbox system is prepared for uncomplicated complete installation; there is no need for time-consuming wall-mounting of individual boxes.
