9-unit stainless steel mailbox system Design BASIC Plus 385XW for side wall mounting - RAL colour of your choice | Left | with 9 mailboxes

Product number 385XW-9S

Product description

Side-mounted BASIC Plus 385XW mailbox system for 9 units – left-hand box position

The BASIC Plus 385XW is a high-quality stainless steel mailbox system for side wall mounting for 9 units. It has been developed for larger residential properties, office buildings and mixed-use properties and enables space-saving installation to the side of the front door or on a suitable wall area.

With nine mailboxes arranged one above the other, the 385XW is aimed at larger properties where available wall width is limited.

The mailboxes are made from stainless steel V2A 1.4301 and are powder-coated in a RAL or DB colour of choice. The rain hood and side cladding are also made from stainless steel. The side fixing is carried out via Ø 60.3 mm stainless steel posts with a 240-grit brushed finish.

In this variant the box position is on the left. The side arrangement creates a clear mounting edge and allows the mailbox system to be aligned with the entrance situation.

The advantages of the BASIC Plus 385XW at a glance

Robust stainless steel mounting posts

Side wall fixing is via Ø 60.3 mm posts made of stainless steel V2A 1.4301 with a 240-grit brushed finish. They provide a stable and durable connection between the mailbox system and the building wall.

Side wall mounting

The 385XW is mounted to the side of a suitable wall. In this variant the box position is left, allowing the system to be aligned with the existing entrance arrangement.

BASIC Plus in stainless steel V2A

Mailboxes, cladding and the fixing elements consistently use stainless steel V2A 1.4301. The powder-coated mailboxes combine a high-quality surface with a durable construction.

DIN C4 letter slot with rubber lip

Each mailbox has a 35 × 265 mm letter slot suitable for DIN C4 in portrait orientation. A noise-dampening rubber lip reduces the slamming of the letter flap.

Robust solution for 9 units

Nine full-size mailboxes form a durable, modular solution for larger residential and commercial properties. The modular BASIC Plus construction also facilitates maintenance and the installation of replacement parts.

Equipment of the BASIC Plus 385XW for 9 units

Mailbox system

Number of mailboxes 9 mailboxes
Arrangement 1 column × 9 rows
Material Stainless steel V2A 1.4301
Surface Powder-coated in RAL/DB colour of choice
Rain hood / side cladding Stainless steel V2A 1.4301, powder-coated to match
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and operation

Letter slot 35 × 265 mm per mailbox, suitable for DIN C4 in portrait orientation
Mail volume Approx. 12 litres per mailbox
Letter flaps With noise-dampening rubber lip
Mail retrieval Front access
Door opening From left to right
Keys 18 keys in total, 2 per mailbox
Nameplates 9 replaceable nameplates under the letter flaps

Side fixing

Box position Left
Fixing posts Ø 60.3 mm stainless steel V2A 1.4301
Post surface 240-grit brushed finish
Type of installation Screw mounting to a suitable house wall
Fixings Choose bolt anchors or threaded studs on site to suit the wall construction
Standard Mailboxes compliant with DIN EN 13724

Note on side wall mounting

Briefkasten Manufaktur Lippe GmbH

Handelsregister Amtsgericht Lemgo, HRB 8618

The wall must be clean, even and sufficiently load-bearing for the weight of the complete mailbox system. Bolt anchors or threaded studs are not included and must be selected to suit the wall construction, system weight and the local mounting situation.

Note on weather protection

Mail items must be fully inserted so that the letter flaps can close. The mail insertion front should, if possible, not face the prevailing weather. In extreme weather conditions, moisture may penetrate despite norm-compliant construction.

Maintenance and BASIC Plus construction

Stainless steel V2A is low-maintenance and durable. The modular BASIC Plus construction has been designed for uncomplicated installation and a good supply of replacement parts.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
