Product description

14-unit 5x3 Surface-mounted Mailbox Design BASIC Plus 382XA AP - Brushed Stainless Steel V2A

High-quality surface-mounted mailbox for 14 occupants made in Germany by Briefkasten Manufaktur.

The complete surface-mounted mailbox system is made of brushed stainless steel V2A. The very high-quality workmanship and the well thought-out concept make this mailbox system one of our top sellers. A rain-runoff edge for optimum water protection, a continuous rubber lip for quiet insertion, a solid interchangeable nameplate, a practical mail-holding bracket and a very robust lock characterise this surface-mounted mailbox system.

The mailbox systems of the BASIC Plus collection are distinguished by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part fitting and straightforward self-assembly. Spare parts are directly available for all BASIC Plus systems.

Thanks to the design, self-assembly is uncomplicated. The mailbox system is prepared for straightforward complete installation; there is no need for laborious wall mounting of individual boxes.
