Design free-standing letterbox BRENTANO with newspaper box - RAL 7016 anthracite gray

The modern free-standing letterbox BRENTANO with newspaper compartment without visible lock and elegant inscription of the house number and name.

The dimensions allow a capacity of about 20 liters, the insertion from the top guarantees no crumpled mail even with DIN C4 envelopes and magazines or after several days of absence. The mailbox is equipped with dampers so that the insertion flap closes slowly and quietly. The innovative push-key lock is hidden invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the arrangement of the lock, this mailbox is designed so that the removal door prevents mail from falling towards you. The high quality finished mailbox is completely made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder coated, there are no visible welding points or rivets.

The one-hand operation concept with the push-key lock is unique on the market and only available at Briefkasten Manufaktur Lippe. Only one hand is needed for opening, removing the mail and closing: Protected utility model according to DPMA file number DE: 20 2021 101 679.5

Thanks to the construction method, self-assembly is uncomplicated.

- High-quality manufactured free-standing letterbox made of stainless steel, powder coated in RAL 7016 anthracite gray.
- 5-year BML warranty against defects in materials and workmanship and 10-year warranty against rusting through.
- Door opens from top to bottom.
- Throw-in from the top, throw-in flap with high-quality dampers for silent closing.
- Includes self-adhesive and engravable nameplate and 2 keys with key number.
- The mailbox complies with DIN/EN 13724. Insert size (3.5 cm x 36.0 cm) for C4 landscape, here fit even large letters without bending.
- Newspaper compartment (BH 400x120mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder coated. Open on both sides.
- Optional name inscription approx. 20-30mm high.
- Optional house number inscription approx. 80-100mm high.
- The standing column is made of W 80mm x D 40mm stainless steel V2A 1.4301, powder coated in RAL color for screw mounting or setting in concrete.

Important information:

In order to achieve optimum water protection for your mail, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail is only protected from water when it is fully inserted in the box and the insertion flap is closed. Mail that is not completely inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
