Design surface-mounted letterbox GRIMM - polished stainless steel with preparation for camera and intercom on the right | Right | Individualised preparation | Stainless steel, brushed | Surface-mounted

Product number 562-AP-SPR-1-VA-IND

Product description

Design Mailbox GRIMM® – A Masterpiece of Mailbox Manufacturing

The Design Surface-Mounted Mailbox GRIMM combines modern design with first-class craftsmanship – ideal for discerning builders and architects seeking an elegant solution for the integration of a camera and built-in loudspeaker. Manufactured from high-quality stainless steel and completely “Made in Germany” by the Mailbox Manufacturer Lippe, this model represents durability, functionality, and stylish aesthetics. The brushed front panel made of 2 mm stainless steel V2A (1.4301) convinces with a timeless appearance and high corrosion resistance.

 Compatible with common manufacturers: LOXONE, Siedle, Busch-Jaeger, Gira, TCS, Legrand BTicino, Ritto, STR Electronics, ELCOM, HHG, Comelit, Mobotix, HIKVISION and many others available upon request.

The **preparation for a camera** (not included) provides a secure foundation for modern video surveillance directly at the entrance. A **preparation for a built-in loudspeaker** is also possible – optionally with a suitable universal adapter for various intercoms. This allows the mailbox to be perfectly adapted to your existing technology.

The Mailbox GRIMM® is not only a visual highlight, but also leads in functionality and quality. Thanks to the innovative push-key lock, the mailbox can be easily and comfortably operated with one hand. Open the door with a press and close the door without using a key. The lock is optimally protected against weather influences. Additionally, the mailbox features an intelligent retrieval system: the door opens from top to bottom, ensuring that the mail stays securely inside and cannot fall back out. The mail can also be comfortably inserted from the front, with high-quality axle dampers providing a gentle closing of the mail flap. Particularly unique is the GRIMM due to its double box system: the surface-mounted body made of brushed stainless steel V2A (1.4301) is installed first, while the panel can be fitted after the completion of the installation works. The recessed panel also offers optimal protection against rain and other environmental influences.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideally suited for large letters in C4 format, which can be inserted without creasing. The Mailbox GRIMM® impresses with its durable quality, timeless design, and thoughtful functionality.

- High-quality mailbox completely made of stainless steel for surface mounting.
- Front panel made of 2 mm stainless steel V2A 1.4301, brushed.
- Quality manufacturing – Made in Germany by Mailbox Manufacturer Lippe.
- Preparation (built-in loudspeaker not included) for intercom system possible. Optionally with universal adapter for all standard built-in loudspeakers.
- Optional preparation (camera not included) for a camera.
- House number approximately 70mm high (max. 3 digits) with energy-saving LED lighting 12V DC approximately 50mA / 1W, white.
- Optionally replaceable nameplate made of stainless steel with laser engraving or nameplate made of plexiglass.
- 8-12V DC short-stroke doorbell button with LED ring lighting (Blue, White, Red, or Green). The lighting of the doorbell button cannot be powered through the control unit. It must be connected to an additional power supply of 8-12 V DC.
- Optionally, a 8-12V DC short-stroke push button with pictogram is available.
- Includes EVN LED power supply / transformer IP65 12V/DC 0.1-4W for the LED lighting (house number, doorbell button, and nameplate if selected).
- Innovative push-key lock including 2 keys with key number, comfortable locking without key, optimally protected against weather.
- The retrieval door with opening limiter opens from top to bottom, preventing the mail from falling out.
- Front-side insertion with high-quality axle dampers for very quiet insertion of the mail.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain intact. Additional retrieval protection made of stainless steel is integrated.
- Optimal weather protection through recessed panel.
- Double box system: Ideal for surface mounting. The panel can be conveniently installed after the construction work is completed.
- Surface-mounted box made of 2mm stainless steel V2A 1.4301, brushed.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should ideally be located under an awning.

Mail is only protected from water when it is completely placed in the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a valid reason for complaint.
