free-standing letterbox KANT Edition with newspaper compartment - Design Elegance 2 - DB 703 micaceous iron ore

The free-standing letterbox KANT Edition combines **elegant design** and functional convenience in one product. Its minimalist design with invisible lock and stylish labeling option fits seamlessly into modern living environments. Rely on **long-lasting quality** thanks to our excellent choice of materials and precise workmanship.

The generous capacity of about 12 liters and the insertion from above ensure crease-free mail - even with DIN C4 envelopes and magazines. For added convenience, the mailbox is equipped with **high-quality axle dampers** that allow for a smooth and quiet closing of the insertion flap. The newspaper compartment of this mailbox offers maximum functionality with double-sided occupancy, ideal for modern everyday life. Included in the delivery is a subsequently mountable closing lid, which gives you the possibility to reliably close the weather side.

Thanks to the construction method, self-assembly is uncomplicated.

- High-quality manufactured free-standing letterbox with letterbox made of galvanized steel, powder-coated in DB 703 iron mica fine structure matt.
- Design Elegance 2: Narrow stainless steel trim, ground in 240 grain.
- Door opens from top to bottom.
- Insertion from above, insertion flap with high-quality axle dampers for silent closing.
- Includes 2 keys with key number.
- The mailbox complies with DIN/EN 13724. Insert size (3.5 cm x 33.5 cm) for C4 crosswise, here fit even large letters without bending.
- Newspaper compartment (BH 360x110mm) made of galvanized steel, powder-coated in DB 703 micaceous iron ore matt. Open on both sides (1x cover enclosed).
- Optional name inscription approx. 20-30mm high.
- The stand columns are made of 40 mm x 40 mm stainless steel V2A 1.4301, ground for setting in concrete or screw mounting.

Important information:

In order to achieve optimum water protection for your mail, the mailbox or mailbox system should be located under a canopy if possible.

Mail is only protected from water when it is completely deposited in the box and the insertion flap is closed. Mail that is not completely inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
