Surface-mounted parcel box KANT Edition with lock technology - Design Elegance 2 - RAL 7016 anthracite gray

The KANT Edition parcel box is an innovative solution that combines **elegant design** and functional convenience. With its minimalist design, which features an invisible lock and stylish labeling options, it fits seamlessly into modern living environments. Rely on **long-lasting quality** thanks to our excellent choice of materials and precise workmanship.

The generous insertion opening allows parcels up to a size of 360 x 250 x 130 mm to be inserted, which means that even parcels up to parcel size M can be inserted easily and securely. A special highlight is the protective flap, which elegantly covers not only the insertion opening but also the lock and protects it from moisture. Thanks to the integrated lock technology, the inserted parcels can only be removed from the bottom of compartment, which is secured with a lock, thus preventing theft by tampering from above. A parcel box for easy reception of parcels, parcel reception independent of the deliverer! Every parcel deliverer (e.g. DHL, DPD, TNT, GLS, Hermes, etc.) can use this parcel mailbox. Due to the sluice technology and 85 liters capacity, the reception of several parcels is possible. In addition, the daily mail can be thrown in through the sluice in classic form.

The self-assembly is uncomplicated due to the sophisticated design.

- High-quality manufactured surface-mounted parcel box made of galvanized steel, powder-coated in RAL 7016 anthracite gray fine structure matt.
- Design Elegance 2: Narrow stainless steel trim, ground in 240 grain.
- Volume package compartment: approx. 85 liters, Max. Package size: 360 x 250 x 130 mm (WHT), this corresponds to the package size M.
- Large insertion flap with sluice technology for multiple parcel allocation.
- Insertion flap with damping for quiet closing.
- Door opens from top to bottom, providing additional protection against theft.
- Includes 2 keys with key number.
- Optional name inscription approx. 20-30mm high.
- For surface wall mounting including mounting screws.

Important information:

In order to achieve optimum water protection of your parcels, the parcel box or parcel box system should be located under a canopy if possible.

The parcel is only protected from water if it is completely placed in the box and the insertion flap is closed. Packages that are not completely inserted allow moisture and dirt to enter the parcel box. Water ingress is not a reason for complaint.
