5-unit design flush-mounted mailbox GOETHE UP - RAL colour of your choice - DoorBird left-hand video intercom | Left | without newspaper compartment | 100mm depth | DoorBird | with 5 letterboxes

Product number 215-UP-5-SP-DB-100-L

Product description

5-unit GOETHE UP flush-mounted design mailbox - RAL colour of your choice - DoorBird video intercom right

High-quality 5-unit flush-mounted mailbox with a seamlessly integrated DoorBird IP video door station D2100E in a flush-fit design. The DoorBird IP video door station D2100E is the smart solution for your entrance. The IP video door station can be operated as a standalone unit or integrated into an existing smart home platform. Existing classic installations such as a door chime or an electric door and gate opener can continue to be used with DoorBird and controlled via the app.

The dimensions of the individual box allow a capacity of approx. 16 or 32 litres; the large insertion slot also guarantees wrinkle-free mail for DIN C4 envelopes and magazines, even after several days of absence. The innovative push-key lock is invisibly concealed inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the lock position, this mailbox is designed so that the retrieval door prevents your mail from falling out towards you. The drip edge ensures that internal mail is optimally protected from the weather. The insertion flap is fitted with high-quality hinge dampers, ensuring quiet closing and preventing disruptive rattling caused by weather influences.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare part assembly and uncomplicated self-installation. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-installation is straightforward.

Protected utility model under DPMA file number DE: 20 2021 101 679.5

- Function box (WxH 400x400 mm) made of stainless steel 1.4016 (corrosion-resistant, magnetic stainless steel), powder-coated in an RAL colour of your choice.
- Optional house number with energy-saving LED illumination approximately 70–100 mm high possible (depending on the number of characters).
- Plaster cover frame made from 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in an RAL colour.
- Incl. DoorBird IP video door station D2100E + multi-tenant module MTM18A with illuminated call buttons or IP video door station D3100E with 7-inch display.

Important information

Camera or intercom provision

The intercom systems must be connected by a qualified electrician. Please contact the electrician of your choice for planning, installation and commissioning.

Water protection

For optimal water protection of your mail, the mailbox or mailbox system should, if possible, be located beneath a canopy.

Mail is only protected from water when it is placed completely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This unit is protected against water ingress in accordance with DIN EN 13724. Water ingress does not constitute grounds for complaint.
