8er Design flush-mounted mailbox GOETHE UP - RAL colour of your choice - DoorBird video intercom, left-hand | Left | without newspaper compartment | 100mm depth | DoorBird | with 8 mailboxes

Product number 215-UP-8-SP-DB-100-L

Product description

8-unit flush-mounted mailbox GOETHE UP - RAL colour of choice - left-hand DoorBird video intercom

High-quality manufactured 8-unit flush-mounted mailbox with a seamlessly integrated DoorBird IP video door station D2100E in a flush design. The DoorBird IP video door station D2100E is the smart solution for your entrance door. The IP video door station can be operated as a standalone unit or integrated into an existing smart home platform. Existing classic installations such as a door chime or an electric door and gate opener can also continue to be used with DoorBird and be controlled via the app.

The dimensions of the individual compartment allow a capacity of approx. 16 or 32 litres; the large aperture also ensures that DIN C4 envelopes and magazines, or post accumulated during several days' absence, do not arrive creased. The innovative push-key lock is invisibly concealed inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the position of the lock, this mailbox is designed so that the retrieval door prevents the mail from falling out towards you. Thanks to the water drainage edge, the mail stored inside is optimally protected from the weather. The inlet flap is equipped with high-quality dampers, ensuring quiet closing and preventing rattling caused by weather influences.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part assembly and uncomplicated DIY installation. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the construction, self-installation is straightforward.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- 8-way flush-mounted mailbox completely made of stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (dimensions 400 x 400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Letters are inserted and retrieved from the front. Inlet flap with high-quality dampers for very quiet insertion of mail.
- The mailbox complies with DIN/EN 13724. Aperture size (3.5 cm x 36.0 cm) for landscape C4 — large letters fit in here without being folded.
- Retrieval doors open from top to bottom. This prevents the mail from falling out towards you.
- Plexiglass nameplate for name inscription and a second nameplate Advertising Yes/No per unit.
- Functional housing (dimensions 400 x 400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Optional house number with energy-saving LED illumination approx. 70–100 mm high possible (depending on the number of characters).
- Plaster cover frame made of 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Includes DoorBird IP video door station D2100E + multi-tenant module MTM18A with illuminated call buttons or IP video door station D3100E with 7-inch display.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. For planning, fitting and installation, please contact the electrician you trust.

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, where possible, be located under an overhang.

Mail is only protected from water if it is placed completely inside the box and the inlet flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress does not constitute grounds for a complaint.
