Product number 385XA220-8

Product description

Surface-mounted mailbox system BASIC Plus 385XA 220 for 8 households – 25 litres per compartment – RAL colour of your choice

The BASIC Plus 385XA surface-mounted mailbox system for 8 households is a robust wall solution for multi-family houses, residential complexes and commercially used properties. The balanced arrangement groups all mail compartments into a clearly structured and visually closed wall unit.

The BASIC Plus mailbox system is consistently made of stainless steel V2A and is powder-coated in the selected RAL colour. The modular construction is designed for durability, simple installation and good spare-part availability.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm insertion slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox includes two keys with key number and an interchangeable nameplate beneath the insertion flap.

The benefits of the BASIC Plus 385XA 220 surface-mounted unit at a glance

Canopy and side panels

The canopy and side panels combine the individual mail compartments into a unified surface-mounted unit. The coordinated cladding provides a calm front and a clean finish at the façade.

25 litres post volume per compartment

The 300 × 220 × 385 mm (W × H × D) compartments each offer approx. 25 litres of volume. The 35 × 265 mm insertion slot also accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted unit is designed for direct façade installation. A mounting rail simplifies installation; fixings with screws and wall plugs are included in the described configuration.

BASIC Plus in RAL colour of your choice

Stainless steel V2A forms the robust basis; the powder coating can be carried out in the desired RAL colour to match the façade, front door and window profiles. BASIC Plus also stands for consistent V2A use, modular construction and directly available spare parts.

Equipment of the BASIC Plus 385XA 220 mailbox system

Mailbox system

Number of mailboxes 8 separately lockable compartments
Single compartment 300 × 220 × 385 mm (W × H × D)
Volume Approx. 25 litres per mailbox
Material Stainless steel V2A, powder-coated in RAL colour of your choice
Surface Powder coating in RAL colour of your choice
Standard DIN EN 13724

Post and operation

Insertion slot 35 × 265 mm, suitable for DIN C4 portrait

The wall must be flat and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems, appropriate fixing solutions must be specified on site.

Note on weather protection

Post is best protected from moisture and dirt when items are fully inserted and the insertion flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently relies on stainless steel V2A and a modular, installation-friendly design. Spare parts for BASIC Plus units are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
