A rain drip edge for optimal water protection, a double-folded letter flap with rubber buffer, the sturdy interchangeable nameplate, a practical mail retention bracket and the very robust lock distinguish this stainless steel mailbox.

The mailbox systems of the BASIC Plus collection are characterised by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy replacement part installation and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.
