5-unit 2x3 stainless steel surface-mounted mailbox Design BASIC Plus 382XA AP with bell box - RAL colour of your choice | Left | 100mm depth | ? Colour of your choice | with 5 mailboxes (3x2)

Product number 382XA-5-SP-100-L

Product description

5-unit 2×3 stainless steel surface-mounted mailbox Design BASIC Plus 382XA AP with bell box - RAL colour of your choice

High-quality surface-mounted mailbox for 5 units - made in Germany by Briefkasten Manufaktur. The complete surface-mounted mailbox system is made from stainless steel V2A, powder-coated in a RAL colour. The very high-quality workmanship and the well-thought-out concept make this mailbox system one of our top sellers. A rain drainage edge for optimal water protection, a continuous rubber lip for quiet posting, the robust interchangeable nameplate, a practical mail retention bar and the very sturdy lock characterise this surface-mounted mailbox system.

The side cladding with a projecting rain roof in stainless steel V2A offers optimal protection against the weather and guarantees very high longevity. The high-quality bell panel with stainless steel bell buttons and anti-vandal nameplates can optionally be prepared with a speech grille for the installation of built-in speakers. The mailbox systems of the BASIC Plus collection are distinguished by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy spare-part installation and uncomplicated self-assembly.

Spare parts are directly available for all BASIC Plus systems. Thanks to the design, self-assembly is straightforward. The mailbox system is prepared for uncomplicated complete mounting; there is no need for elaborate wall mounting of individual boxes. 5-unit surface-mounted mailbox system with mailboxes made from stainless steel V2A, powder-coated in a RAL colour.

Benefits at a glance

Stainless steel side cladding with rain roof

Side cladding and rain roof are made from stainless steel V2A, powder-coated in a RAL colour of your choice, and complement the system as a structurally coordinated weather protection.

Generous mail slot

The slot measures 35 × 325 mm and is designed for DIN C4 in landscape orientation. The mailbox design complies with DIN EN 13724.

Quiet posting and convenient retrieval

The integrated flap damper with rubber seal reduces impact noise during posting. The door opens from left to right. The mail retention bar holds items back during retrieval.

Integrated bell and intercom area

Bell box made from weather-resistant V2A stainless steel 1.4301, powder-coated in a RAL colour. The stainless steel bell button Type 4 is used. Optionally prepared with a speech grille for the installation of standard intercom systems or built-in speakers. (Intercom system/built-in speaker not included). An option with a Comelit Ultra video complete set is also available.

Quality manufacturing and well-thought-out construction

The system is manufactured by Briefkasten Manufaktur in Germany. The design is intended for straightforward self-assembly.

Equipment and product details

Mailbox system

Number of mailboxes 5 separate mail compartments
Arrangement 3 × 2
Depth 100 mm
Mailbox material Stainless steel V2A
Mailbox finish Powder-coated in a RAL colour of your choice
Bell/intercom section Bell box made from weather-resistant V2A stainless steel 1.4301, powder-coated in a RAL colour

Mail and operation

Mail slot 35 × 325 mm, suitable for DIN C4 in landscape orientation

Rain roof Made from stainless steel V2A, powder-coated in a RAL colour of your choice
Side cladding Made from stainless steel V2A, powder-coated in a RAL colour of your choice
Mounting material For wall mounting including mounting rail and fastening material (screws + wall plugs)
Manufacturing Made in Germany by Briefkasten Manufaktur Lippe

Note on weather protection

Mail items are best protected against moisture and soiling when fully posted and with the posting flap closed. Protruding items may prevent the flap from closing completely.

Note on wall mounting

Before mounting, the load-bearing capacity and condition of the wall must be checked. The anchoring must be matched to the system weight and the existing wall structure.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
