## free-standing letterbox LESSING Edition with newspaper compartment - Design Elegance 1 - RAL 9016 traffic white

The free-standing letterbox LESSING Edition with newspaper compartment represents a masterful combination of elegant aesthetics and practical functionality. Its minimalist design, complemented by an invisible lock and a variety of labelling options, harmonizes perfectly with modern living environments. Made from high-quality, powder-coated galvanized steel and finished with a stainless steel trim, this letterbox not only promises an attractive appearance, but also remarkable durability and robustness.

With a capacity of approx. 19 liters and a top-access slot, the LESSING Edition ensures that your mail remains crease-free. The flap is equipped with high-quality axle dampers that allow it to close gently. The simple self-assembly and optional personalization make it the ideal letterbox for discerning users who value design, quality and convenience.

A special highlight of this model is the integrated, closed newspaper compartment or storage compartment. This innovative feature is specially designed for receiving newspapers and provides optimum protection from the weather. The compartment, which opens from top to bottom, provides a secure storage place that keeps your newspapers dry and intact, thus ideally complementing the functionality of the letterbox.

Thanks to the design, self-assembly is straightforward.

- High-quality letterbox pillar made of galvanized steel, powder-coated in RAL 9016 traffic white fine structure matt.
- Elegance 1 design: Stainless steel trim, 240 grit polished.
- The door can be opened from top to bottom.
- Insertion from above, insertion flap with high-quality axle dampers for silent closing.
- Includes 2 keys with key number.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 33.5 cm) for C4 landscape, even large letters fit in here without creasing.
- Generous capacity of approx. 19 liters.
- Closed newspaper compartment or storage compartment with door that opens from top to bottom.
- Optional name lettering approx. 8-25 mm high.
- Optional house number lettering approx. 60-80mm high.
- Letterbox pillar with base plate for screw mounting.

### Important information:

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible. The mail is only protected from water if it is completely placed in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
