9-unit stainless steel surface-mounted mailbox system Design BASIC 385 A 220 - V2A stainless steel, brushed | 300x220x385 mm (WxHxD) - ???? Large 25 litres | Stainless steel, brushed | with 9 mailboxes

Product number 385A220-9

Product description

Surface-mounted mailbox system BASIC 385A 220 for 9 households – 25 litres per compartment – Brushed stainless steel V2A

The BASIC 385A surface-mounted mailbox system for 9 households is a robust wall-mounted solution for apartment buildings, residential complexes and commercial properties. The balanced arrangement groups all mail compartments into a clearly structured and visually uninterrupted wall unit.

The mailbox system is made from premium V2A stainless steel with a brushed finish. Mailboxes, cladding and rainhood form a timeless, low-maintenance and robust stainless steel unit.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox includes two keys with a key number and an interchangeable nameplate located beneath the mail flap.

The advantages of the BASIC 385A 220 surface-mounted unit at a glance

Rainhood and side cladding

The rainhood and side panels combine the individual mail compartments into a single, closed surface-mounted unit. The coordinated cladding creates a calm front and a neat finish against the façade.

25 litres mail volume per compartment

The 300 × 220 × 385 mm (W × H × D) compartments each offer approx. 25 litres of volume. The 35 × 265 mm mail slot also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key numbers and protected interchangeable nameplates ensure clear allocation of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted unit is designed for direct façade installation. A mounting rail facilitates installation; fixings with screws and wall plugs are included in the described configuration.

Entirely in brushed stainless steel

The V2A version combines a high-quality metal surface with a robust construction for long-lasting surface-mounted mailbox systems. The unit is manufactured in Germany at the Briefkasten Manufaktur.

Equipment of the BASIC 385A 220 mailbox system

Mailbox system

Number of mailboxes 9 separately lockable compartments
Single compartment 300 × 220 × 385 mm (W × H × D)
Volume Approx. 25 litres per mailbox
Material Stainless steel V2A 1.4301, brushed
Surface Stainless steel V2A 1.4301, brushed
Standard DIN EN 13724

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Mail flaps With sound-damping rubber lip
Mail removal Front access
Door opening Opens from left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the mail flap

Cladding and wall mounting

Side cladding Close-fitting design
Rainhood Solid, unit-matching design
Mounting type Surface-mounted wall installation
Installation aid Mounting rail
Fixings Screws and wall plugs included; check suitability for the wall construction on site
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation systems, appropriate fixing solutions must be determined on site.

Note on weather protection

Mail is best protected against moisture and soiling only when items are fully inserted and the mail flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

Product properties

Series	BASIC
Number of boxes	with 9 letterboxes
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Surface-mounted
