Product number 385XA220-RALVA-2

Product description

Surface-mounted mailbox system BASIC Plus 385XA 220 for 2 households – 25 litres per compartment – BI-Color RAL / stainless steel

The BASIC Plus 385XA surface-mounted mailbox system for 2 households is a robust wall-mounted solution for semi-detached houses, properties with a granny flat and smaller office buildings. The balanced arrangement groups all mail compartments into a clearly structured, visually continuous wall installation.

The BASIC Plus BI-Color version combines powder-coated stainless steel V2A in a RAL colour of choice with brushed stainless steel accents. This creates an individual, high-quality material combination for modern façades.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate located beneath the letter flap.

The advantages of the BASIC Plus 385XA 220 surface-mounted system at a glance

Rain canopy and side cladding

The rain canopy and side panels join the individual mail compartments into a continuous surface-mounted system. The coordinated cladding provides a calm front and a neat finish to the façade.

25 litres mail volume per compartment

The 300 × 220 × 385 mm (W × H × D) compartments each offer approx. 25 litres of volume. The 35 × 265 mm mail slot also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the letter flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail facilitates installation; fastening materials including screws and wall plugs are included in the described specification.

BI-Color with RAL and stainless steel

The combination of a freely selectable RAL powder coating and brushed stainless steel creates deliberate contrasts and emphasises the high-quality BASIC Plus construction. BASIC Plus furthermore stands for consistent use of V2A stainless steel, modular construction and readily available spare parts.

Equipment of the BASIC Plus 385XA 220 mailbox system

Mailbox system

Number of mailboxes 2 individually lockable compartments
Individual compartment 300 × 220 × 385 mm (W × H × D)
Volume Approx. 25 litres per mailbox
Material Stainless steel V2A in BI-Color finish: RAL powder coating with brushed stainless steel accents
Finish BI-Color: RAL colour of choice / brushed stainless steel V2A
Standard DIN EN 13724

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 in portrait orientation
Letter flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the letter flap

Cladding and wall mounting

Side cladding Close-fitting design
Rain canopy Robust, matching design for the system
Type of installation Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular design with readily available spare parts
Fixings Screws and wall plugs included; suitability for on-site wall construction should be checked
Manufacturing Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems appropriate fastening solutions must be specified on site.

Note on weather protection

Mail is best protected from moisture and dirt only when items are fully inserted and the mail flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently uses stainless steel V2A and a modular, installation-friendly construction. Spare parts for BASIC Plus systems are readily available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Number of boxes	with 2 letterboxes
Removal of mail	On the front
Boxes by volume	Large > 16 litres
Mounting type	Surface-mounted
