9-unit freestanding mailbox system Design BASIC 385P-7016-SP with doorbell-intercom unit incl. side cladding & rain hood - horizontal mailboxes - Anthracite grey RAL 7016 | RAL 7016 Anthracite grey, fine texture, matt | Right | with 9 mailboxes

Product number 385P-7016-9S-SP-R

Product description

Freestanding mailbox system BASIC 385P with bell/intercom unit on the right for 9 households – RAL 7016 Anthracite grey – narrow version

The freestanding BASIC 385P mailbox system for 9 households combines 9 separately usable mail compartments with an integrated bell-function box. This brings mail reception, doorbell buttons and preparation for a compatible door intercom system together in a robust, visually unified entrance solution for larger apartment buildings, residential complexes and commercial properties. In this variant the bell/intercom unit is positioned to the right of the mailbox system.

The mailboxes are made from galvanised steel and are powder-coated in RAL 7016 Anthracite grey, fine-textured matt. A close-fitting side cladding with rain canopy and integrated rain drainage channels support weather protection. The solidly manufactured upright posts of anodised aluminium profile are also powder-coated in RAL 7016 Anthracite grey and form an especially stable, long-lasting base for the freestanding unit.

Each of the 9 mail compartments has approx. 12 litres volume. The 35 × 265 mm letter slot is designed for DIN C4 items in portrait orientation. A noise-damping rubber lip reduces the slamming of the letter flap. Mail is removed from the front; the collection doors open from left to right. Each mailbox is supplied with two keys with key number and an interchangeable nameplate located beneath the letter slot.

The advantages of the BASIC 385P mailbox system at a glance

Integrated bell-function box on the right

The unit combines 9 mailboxes with 9 stainless-steel bell buttons and a speaker aperture with universal adapter. This creates a central, tidy solution for mail and visitor communication.

Solid aluminium upright posts

Solidly manufactured, anodised aluminium profiles form the stable base of the freestanding unit. The powder-coated construction combines high load-bearing capacity with a durable exterior finish for outdoor use.

DIN C4 letter slot with 12 litres volume

The mailboxes each provide approx. 12 litres of mail volume. The 35 × 265 mm letter slot accepts DIN C4 items in portrait orientation without larger envelopes having to be unnecessarily folded.

Prepared for door communication

The speaker aperture with universal adapter is prepared for many commercially available built-in loudspeakers.

Robust BASIC quality in RAL 7016 Anthracite grey

Galvanised steel, stainless-steel components, solid aluminium upright posts and German manufacture result in a durable mailbox system for long-term use at the property entrance.

Equipment of the BASIC 385P mailbox system

Mailbox system

Number of mailboxes 9 separately usable mail compartments
Mailbox dimensions 300 × 110 × 385 mm (W × H × D) per compartment
Mail volume Approx. 12 litres per mailbox
Material Galvanised steel; side cladding and rain canopy in stainless steel V2A
Finish RAL 7016 Anthracite grey, fine-textured matt
Letter slot 35 × 265 mm, suitable for DIN C4 portrait
Standard Mailboxes conforming to DIN EN 13724

Bell and intercom unit

Bell-function box Galvanised steel, powder-coated to match
Position Right
Bell buttons 9 round stainless-steel bell buttons, type 4
Speaker aperture With universal adapter for commercially available built-in loudspeakers
Nameplate Robust and impact-resistant design

Solid aluminium upright posts

Upright posts Solidly manufactured, anodised aluminium profile
Coating Powder-coated in RAL 7016 Anthracite grey
Mounting options Available for bolted installation or for anchoring in concrete
Bolted installation Posts selectable in 1200 or 1600 mm
Concreting Posts selectable in 1600 or 2000 mm
Delivery condition Posts and mailbox unit supplied in installation-friendly sections
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on the bell/intercom unit

The universal adapter is suitable for many commercially available built-in loudspeakers. Intercom units, built-in loudspeakers, power supply and cabling are not part of the described basic equipment and must be provided to suit the planned system.

Mounting on a foundation

For bolted installation a level and sufficiently load-bearing foundation is required. Fixings must be selected to suit the foundation, the weight of the unit and the local installation situation.

Mounting by concreting

For the concreting version the extended aluminium posts are anchored vertically in a sufficiently dimensioned concrete foundation. Foundation size and embedment depth must be matched to the ground conditions, unit dimensions and local loads.

Note on weather protection

The rain canopy, close-fitting side cladding and integrated rain gutters support weather protection. Mail items must be fully inserted so that the letter flaps can close completely. Under extreme weather conditions, slight moisture ingress may occur despite norm-compliant construction.

Product properties

Material	Steel, galvanised, Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Series	BASIC
Number of bell push buttons	9 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Number of boxes	with 9 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey
Removal of mail	On the front
