Product number 562-UP-SPO-1-VA-LOX1

Product description

Design Mailbox GRIMM® – A Masterpiece of Mailbox Manufacturing

The Design Surface-Mounted Mailbox GRIMM combines modern design with first-class craftsmanship – ideal for discerning builders and architects seeking an elegant solution for integrating the LOXONE intercom. Manufactured from high-quality stainless steel and entirely “Made in Germany” by the Mailbox Manufacturer Lippe, this model represents durability, functionality, and stylish aesthetics. The brushed front panel made of 2 mm stainless steel V2A (1.4301) impresses with its timeless appearance and high corrosion resistance. The flush design allows for seamless integration of up to two LOXONE system modules (not included) via a thoughtfully designed mounting system. The preparation is intended for 1 LOXONE intercom (including opening for sound emission).

The mailbox GRIMM® is not only an optical highlight but also excels in terms of functionality and quality. Thanks to the innovative push-key lock, the mailbox can be easily and comfortably operated with one hand. Open the door with a press and close it without using a key. The lock is optimally protected against weather influences. Additionally, the mailbox features an intelligent retrieval system: The door opens from top to bottom, ensuring that the mail remains securely in the box and cannot fall out. The insertion is also comfortably done from the front, with high-quality axis dampers ensuring a smooth closure of the insertion flap. Particularly unique is the GRIMM with its double-box system: The installation box can be installed during the shell construction phase, while the front panel is mounted only after the construction work is completed – for maximum future flexibility and protection from dirt and dust during the construction phase. The insertion box is made of stainless steel 1.4016 and features pre-punched cable entries on all sides to enable easy electrical installation.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creases. The mailbox GRIMM® impresses with its durable quality, timeless design, and well-thought-out functionality.

- High-quality mailbox entirely made of stainless steel for surface mounting.
- Front panel made of 2 mm stainless steel V2A 1.4301, brushed.
- Quality manufacturing – Made in Germany by Mailbox Manufacturer Lippe.
- The LOXONE intercom can be seamlessly integrated into the flush design and can be replaced at any time. Preparation is intended for 1 LOXONE intercom (including opening for sound emission). WITHOUT LOXONE intercom/system components!
- Innovative push-key lock including 2 keys with key number, pleasant closure without a key, optimally protected against weather.
- The retrieval door with opening limiter opens from top to bottom to prevent your mail from falling out.
- Front insertion with high-quality axis dampers for very quiet insertion of mail.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection through recessed panel.
- Double-box system: Ideal for surface mounting. The panel can be conveniently installed after the construction work has been completed.
- Insertion box made of stainless steel 1.4016 (rust-resistant, magnetic stainless steel) with pre-punched cable entries on all sides.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail is only protected from water if it is completely placed in the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This installation is protected against water ingress according to DIN EN 13724. Water ingress is not grounds for complaint.

Product properties

Series	GRIMM
Functions	Camera, Intercom, Fingerprint, Keypad
Functional box prepared for manufacturer	LOXONE
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted
