The complete surface-mounted mailbox system is made from stainless steel V2A, powder-coated in a RAL colour. The very high-quality workmanship and the well thought-out design make this mailbox system one of our bestsellers. A rain drip edge for optimal water protection, a continuous rubber lip for quiet insertion, the interchangeable nameplate, a practical mail retention bracket and a robust lock characterise this surface-mounted mailbox system.

Thanks to the design, self-installation is straightforward. The mailbox system is prepared for uncomplicated complete installation; there is no need for time-consuming wall mounting of individual boxes.
