Wall pass-through mailbox BASIC 622 powder coated - 5 parties

The wall pass-through mailbox has plenty of volume for receiving mail and is variable in depth from 290 - 440 mm to fit your wall thickness perfectly (30 degree angle running diagonally to the back). Each single mailbox has a size of 300 x 110 x 290 to 440 mm (WxHxD). The boxes comply with the current EN standard 13724 so that e.g. A4 envelopes can be inserted unbent and protection against break-in is guaranteed.
Great advantage of a wall pass-through letterbox system, it is well protected from the weather and therefore very durable. Also well suited for installation in wall columns. A quality product made in Germany.

- 5 parties wall pass-through mailbox system made of galvanized sheet steel, powder coated.
- German quality production "Made in Germany".
- Inclined, pull-out box and front panel without end frame (for an even look without interruptions).
- Depth variable from 290mm - 440m, 30 degree angle running diagonally to the rear.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 26.5 cm) for C4 high, here fit even large letters without bending.
- Insertion flaps with noise-damping rubber seal for very quiet insertion of mail.
- The removal door can be opened from left to right.
- Incl. 2 keys with key number & changeable name plate under the access flap.
- The inscriptions of the name plates can be exchanged as desired
- Assembly instructions included.
