## Product description

## Wide Surface-Mounted Mailbox System BASIC 385A for 16 Households – RAL 7016 Anthracite Grey

The BASIC 385A surface-mounted mailbox system for 16 households is a robust wall solution for larger apartment buildings, residential complexes and commercial properties. The wider W design distributes the mail compartments across a multi-column front and keeps the overall system proportionally lower and easy to overview.

The mailboxes are made of galvanised steel and powder-coated in RAL 7016 Anthracite Grey fine-textured matt. The close-fitting cladding with rain hood joins the individual compartments into a continuous, modern surface-mounted unit.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm letter slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox comes with two keys with key number and an interchangeable nameplate located beneath the letter flap.

## The advantages of the BASIC 385A surface-mounted system at a glance

### Rain hood and side cladding

The rain hood and side panels unite the individual compartments into a continuous surface-mounted system. The coordinated cladding provides a calm front and a neat finish at the façade.

### DIN C4 letter slot and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) compartments each provide approx. 12 litres of volume. The 35 × 265 mm letter slot also accepts larger DIN C4 items in portrait format.

### Quiet drop-in and secure allocation

The rubber lip damps the letter flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear allocation of the individual compartments.

### Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail simplifies the installation; fixing material with screws and wall plugs is included in the described configuration.

### Durable surface in RAL 7016

The anthracite grey fine-textured surface gives the system a modern appearance and protects the galvanised steel for daily use on the building. The system is manufactured in Germany at Briefkasten Manufaktur.
