Wall lamp PREMIUM 260x260 powder coated

Discover our premium stainless steel outdoor light in your choice of RAL color and opal glass, which is both aesthetically pleasing and functional.

The outdoor light is made of high quality stainless steel that offers excellent resistance to the elements. The opal glass provides a pleasant light distribution and adds a stylish touch to your outdoor space. The timeless design fits perfectly with various architectural styles and gives your home an elegant atmosphere.

The separate mounting plate made of cast aluminum not only provides additional stability, but also makes the light particularly weatherproof. With IP44 protection and protection class I, the luminaire is ideally suited for outdoor use and can withstand rain, dust and other environmental influences.

The outdoor lamp is equipped with an E27 base and can be operated with light bulbs of energy classes A++ to E with a maximum output of 57 W. This gives you the freedom to choose the desired brightness and energy efficiency. Please note that the bulb is not included.

The outdoor light comes with a practical mounting plate made of cast aluminum, which allows for easy and secure mounting. With our mounting accessories, installation is a breeze and you can quickly mount the light in your desired location.

• The outdoor light is made of stainless steel with opal glass, with separate mounting plate made of cast aluminum, powder coated in RAL of your choice.

• Base E 27, suitable for bulbs of energy classes A++ to E max. 57 W.

• Without illuminant.

• Protection class IP 44 - protection class I

• With cast aluminum mounting plate for attachment.

• Make Gebrüder Albert GmbH & Co. KG Leuchtenfabrik - quality made in Germany (Fröndenberg).

Mounting:

For the installation and for the operation of this luminaire the national and international electronic safety regulations must be observed. Loosen wall plate from luminaire fitting using the four set screws. Guide the mains conductor connection through the cable grommet and fix the wall shield to the mounting base. Slide the enclosed silicone hoses over the connection wires. Establish protective conductor connection and electrical connection at the terminal. Clamp the luminaire fitting and glass to the wall plate using the grub screws.
