assembly :

For the installation and for the operation of this lamp, the national and international electronic safety regulations must be observed. Loosen wall shield made of light fitting with the help of the four thread pencils. Guide the network guide connection through the cable throughput and fix the wall plate to assembly ground. Push the enclosed silicone hoses over the connectors. Make the protective conductor connection and electrical connection to the terminal. Tense the luminaire fitting and glass with the tapes on the wall shield.
