10-compartment 2x5 surface mounted mailbox system Design BASIC 382A-7016VA - horizontal - stainless steel anthracite gray RAL 7016

High quality surface mailbox for 10 parties made in Germany by Briefkasten Manufaktur.

The surface-mounted mailbox system is made of galvanized steel, powder coated in RAL 7016 anthracite gray fine structure matt, the access flap is made of weather-resistant stainless steel V2A, ground. The very high quality workmanship and the sophisticated concept make this mailbox system our top seller. A rain drainage edge for optimum water protection, a double-edged access flap with rubber buffer, the solid changeable name plate, a practical mail holding bracket and the very robust lock characterize this surface-mounted mailbox system.

Thanks to the construction method, self-assembly is uncomplicated. The mailbox system is prepared for uncomplicated complete assembly, here no complex wall mounting of individual boxes must take place.

The design of your entrance area will be perfect if you combine the self-adhesive stainless steel house number (not included, see accessories).

- 10-compartment Surface-mounted mailbox system with mailboxes made of galvanized sheet steel, powder-coated in RAL anthracite gray 7016 fine structure.
- The system is made at Briefkasten Manufaktur. German quality production "Made in Germany".
- The mailboxes comply with DIN/EN 13724. Insertion size (3.5 cm x 32.5 cm) for C4 crosswise, here fit even large letters without bending.
- Insertion flaps made of stainless steel, ground with noise-damping rubber buffers for very quiet insertion of mail.
- The doors open from left to right.
- Incl. 2 keys with key number, changeable name plate under the access flap and mail holding bracket per mailbox.
- Large capacity due to optional letterbox depth +50 mm = approx. 17 l. Suitable for companies and households with very large mail volumes.
- For wall mounting incl. fixing material (screws + dowels).

Important information:

Mail is protected from moisture and dirt only when fully inserted and flap closed. In certain extreme weather conditions, water may nevertheless enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.
