11-unit stainless steel surface-mounted mailbox system Design BASIC Plus 385XA AP - RAL colour of your choice | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 11 mailboxes

Product number 385XA-11W

Product description

Wide surface-mounted mailbox system BASIC Plus 385XA for 11 units – RAL colour of your choice

The BASIC Plus 385XA surface-mounted mailbox system for 11 units is a robust wall solution for apartment buildings, residential complexes and commercially used properties. The wider W-design distributes the mailboxes across a multi-column front and keeps the overall system relatively lower and clear in appearance.

The BASIC Plus mailbox system is consistently made from V2A stainless steel and is powder-coated in the selected RAL colour. The modular construction is designed for longevity, easy installation and reliable spare parts supply.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of capacity. The 35 × 265 mm inlet opening is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate located under the inlet flap.

The advantages of the BASIC Plus 385XA surface-mounted system at a glance

Rain canopy and side cladding

Rain canopy and side panels combine the individual compartments into a closed surface-mounted system. The coordinated cladding provides a calm front and a neat finish against the façade.

DIN C4 inlet and 12 litres capacity

The 300 × 110 × 385 mm (W × H × D) compartments each offer approx. 12 litres of capacity. The 35 × 265 mm inlet opening accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the inlet flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear allocation of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail simplifies installation; fastening materials with screws and plugs are included in the described configuration.

BASIC Plus in RAL colour of your choice

V2A stainless steel provides the robust basis; the powder coating can be applied in the desired RAL colour to match the façade, front door and window profiles. BASIC Plus also stands for consistent use of V2A, modular construction and readily available spare parts.

Equipment of the BASIC Plus 385XA mailbox system

Mailbox system

Number of mailboxes 11 individually lockable compartments
Single compartment 300 × 110 × 385 mm (W × H × D)
Capacity Approx. 12 litres per compartment
Material V2A stainless steel, powder-coated in RAL colour of your choice
Finish Powder coating in RAL colour of your choice
Standard DIN EN 13724

Mail and operation

Inlet opening 35 × 265 mm, suitable for DIN C4 portrait
Inlet flaps With noise-damping rubber lip
Mail removal Front access
Door opening Doors open from left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the inlet flap

Cladding and wall installation

Side cladding Close-fitting design
Rain canopy Solid, matching the system
Mounting type Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular construction with readily available spare parts
Fastening materials Screws and plugs included; check suitability for on-site wall mounting
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall installation

Briefkasten Manufaktur Lippe GmbH
Werler Straße 60
32105 Bad Salzuflen

The wall must be even and sufficiently load-bearing. The supplied screws and plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems, suitable fastening solutions must be determined on site.

Note on weather protection

Mail is best protected against moisture and dirt when items are fully inserted and the inlet flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently relies on V2A stainless steel and a modular, installation-friendly construction. Spare parts for BASIC Plus systems are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Number of boxes	with 11 letterboxes
Mounting type	Surface-mounted
