19-unit 7x3 Stainless Steel Surface-mounted Mailbox System Design BASIC Plus 385XA AP - RAL colour of your choice | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 19 mailboxes

Product number 385XA-19W

Product description

Wide surface-mounted mailbox system BASIC Plus 385XA for 19 households – RAL colour of your choice

The BASIC Plus 385XA surface-mounted mailbox system for 19 households is a robust wall-mounted solution for larger multi-family houses, residential complexes and commercial properties. The wider W-version distributes the mailboxes across a multi-column front and keeps the overall system lower in proportion and easy to overview.

The BASIC Plus mailbox system is consistently made from V2A stainless steel and is powder-coated in the chosen RAL colour. The modular construction is designed for durability, easy installation and good spare part availability.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys with key number and one interchangeable nameplate beneath the insertion flap.

The advantages of the BASIC Plus 385XA surface-mounted system at a glance

Weather canopy and side panels

The weather canopy and side panels combine the individual mailboxes into a closed surface-mounted system. The coordinated cladding ensures a calm front and a neat finish at the facade.

DIN C4 insertion and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) compartments each offer approx. 12 litres of volume. The 35 × 265 mm insertion opening also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear use of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct facade installation. A mounting rail facilitates installation; fixings with screws and wall plugs are included in the described configuration.

BASIC Plus in RAL colour of your choice

V2A stainless steel forms the robust basis; the powder coating can be applied in the desired RAL colour to match the facade, front door and window profiles. BASIC Plus also stands for consistent V2A use, modular construction and directly available spare parts.

Equipment of the BASIC Plus 385XA mailbox system

Mailbox system

Number of mailboxes 19 individually lockable compartments
Individual compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per mailbox
Material V2A stainless steel, powder-coated in RAL colour of your choice
Surface Powder coating in RAL colour of your choice
Standard DIN EN 13724

Mail and operation

Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the insertion flap

Cladding and wall installation

Side cladding Close-fitting design
Weather canopy Solid, matching the system
Type of installation Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular design with directly available spare parts
Fixings Screws and wall plugs included; suitability for the on-site wall structure should be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall installation

Briefkasten Manufaktur Lippe GmbH

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems, appropriate fixing solutions must be specified on site.

Note on weather protection

Mail is best protected from moisture and dirt when items are fully inserted and the insertion flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently relies on V2A stainless steel and a modular, installation-friendly construction. Spare parts for BASIC Plus systems are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Number of boxes	with 19 letterboxes
Removal of mail	On the front
Mounting type	Surface-mounted
