9-unit stainless steel surface-mounted mailbox system Design BASIC Plus 385XA AP - RAL colour of your choice | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 9 mailboxes

Product number 385XA-9W

Product description

Wide surface-mounted mailbox system BASIC Plus 385XA for 9 units – RAL colour of your choice

The BASIC Plus 385XA surface-mounted mailbox system for 9 units is a robust wall solution for apartment buildings, residential complexes and commercially used properties. The wider W-version distributes the mailboxes across a multi-column front and keeps the overall system comparatively lower and tidy.

The BASIC Plus mailbox system is consistently made from V2A stainless steel and is powder-coated in the selected RAL colour. The modular construction is designed for durability, easy installation and good spare-part availability.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox includes two keys with key number and an interchangeable nameplate under the mail flap.

The advantages of the BASIC Plus 385XA surface-mounted system at a glance

Rain canopy and side panels

Rain canopy and side panels combine the individual mailboxes into a closed surface-mounted system. The coordinated cladding provides a calm frontage and a neat finish to the façade.

DIN C4 slot and 12-litre volume

The 300 × 110 × 385 mm (W × H × D) compartments each provide approx. 12 litres of volume. The 35 × 265 mm mail slot also accommodates larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail facilitates installation; fixing material with screws and wall plugs is included with the described configuration.

BASIC Plus in RAL colour of your choice

V2A stainless steel forms the robust base; the powder coating can be executed in the desired RAL colour to match the façade, front door and window profiles. BASIC Plus also stands for consistent V2A use, modular construction and directly available spare parts.

Equipment of the BASIC Plus 385XA mailbox system

Mailbox system

Number of mailboxes 9 individually lockable compartments
Single compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per compartment
Material V2A stainless steel, powder-coated in RAL colour of your choice
Finish Powder coating in RAL colour of your choice
Standard DIN EN 13724

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Mail flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening Opens from left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the mail flap

Cladding and wall installation

Side cladding Close-fitting design
Rain canopy Solid, matching the system
Type of installation Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular construction with directly available spare parts
Fixing material Screws and wall plugs included; suitability for on-site wall construction to be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall installation

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems, appropriate fixing solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and dirt when items are fully inserted and the mail flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently uses V2A stainless steel and a modular, installation-friendly construction. Spare parts for BASIC Plus systems are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of boxes	with 9 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Mounting type	Surface-mounted
