Product description

Wide Surface-Mounted Mailbox System BASIC 385A for 6 Households – BI-Color RAL 7016 / Stainless Steel

The BASIC 385A surface-mounted mailbox system for 6 households is a robust wall solution for multi-family houses, smaller residential complexes as well as office and medical practice buildings. The wider "W" version distributes the mailboxes across a multi-column front and keeps the overall unit relatively low and visually clear.

The BI-Color version combines anthracite grey powder-coated mailbox bodies with brushed stainless steel V2A elements. The material contrast gives the BASIC system a high-quality, modern appearance.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate beneath the mail slot flap.

Advantages of the BASIC 385A Surface-Mounted System at a Glance

Weather canopy and side cladding

The weather canopy and side panels unite the individual compartments into a single surface-mounted system. The coordinated cladding provides a calm front and a neat finish at the façade.

DIN C4 mail slot and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) compartments each offer approx. 12 litres of volume. The 35 × 265 mm mail slot also accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure unambiguous use of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail facilitates installation; fixings with screws and wall plugs are included in the described configuration.

BI-Color in anthracite and stainless steel

RAL 7016 Anthracite grey fine-textured matt is combined with brushed stainless steel accents to create a striking material contrast. The system is manufactured in Germany by the Briefkasten Manufaktur.
