Product number 385A220-3W

Product description

Wide surface-mounted mailbox system BASIC 385A 220 for 3 households – 25 litres per compartment – brushed stainless steel V2A

The BASIC 385A surface-mounted mailbox system for 3 households is a robust wall solution for multi-family homes, smaller residential complexes as well as office and medical practice properties. The wider W-version distributes the mail compartments across a multi-column front and keeps the overall unit proportionally lower and clear.

The mailbox system is made from high-quality stainless steel V2A with a brushed finish. Mailboxes, cladding and rain canopy form a timeless, low-maintenance and sturdy stainless steel unit.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys with key number and a replaceable nameplate located beneath the mail flap.

The advantages of the BASIC 385A 220 surface-mounted unit at a glance

Rain canopy and side cladding

The rain canopy and side panels combine the individual compartments into a closed surface-mounted unit. The coordinated cladding provides a calm front and a neat finish at the façade.

25 litres mail volume per compartment

The compartments measuring 300 × 220 × 385 mm (W × H × D) each offer approx. 25 litres of volume. The 35 × 265 mm mail slot also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key number and protected replaceable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted unit is designed for direct façade installation. A mounting rail simplifies installation; fixing materials with screws and wall plugs are included in the described configuration.

Completely in brushed stainless steel

The V2A version combines a high-quality metal surface with a robust construction for long-lasting surface-mounted mailbox systems. The unit is manufactured in Germany by Briefkasten Manufaktur Lippe.

Equipment of the BASIC 385A 220 mailbox system

Mailbox system

Number of mailboxes 3 individually lockable compartments
Individual compartment 300 × 220 × 385 mm (W × H × D)
Volume Approx. 25 litres per compartment
Material Stainless steel V2A 1.4301, brushed
Finish Stainless steel V2A 1.4301, brushed
Standard DIN EN 13724

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Mail flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening Opens from left to right
Keys 2 keys with key number per mailbox
Nameplate Replaceable nameplate beneath the mail flap

Cladding and wall mounting

Side cladding Close-fitting design
Rain canopy Robust canopy matching the unit
Installation type Surface-mounted wall installation
Installation aid Mounting rail
Fixings Screws and wall plugs included; check suitability for the on-site wall construction
Manufacturing Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall structure; for other substrates or external thermal insulation systems, appropriate fixing solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and soiling only when items are fully inserted and the mail flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

Product properties

Series	BASIC
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Surface-mounted
Number of boxes	with 3 letterboxes
