Stainless steel design free-standing letterbox KÄSTNER - Design Line "ONE" in RAL of your choice

Exclusive design mailbox for free-standing installation with front panels in RAL of your choice fine structure, matt and design element made of stainless steel. This mailbox is solidly manufactured and the base material is completely made of stainless steel. Thus, an optimal rust protection is given. Due to the structure is also an optimal water protection given.

The dimensions allow a capacity of about 13 liters, the insertion from the top guarantees no crumpled mail even with DIN C4 envelopes and magazines or after several days of absence. This wall mailbox is designed to keep your hands free when opening it, and the internal structure prevents mail from falling towards you. Due to the insertion from the top, the mail inside is optimally protected from the weather. The mailbox is weatherproof and waterproof. The lid and insertion is secured with a rubber seal against annoying rattling and water penetration.

- Design free-standing letterbox with front panels made of 2mm stainless steel, powder coated in RAL of your choice fine structure, matt.
- Body and access flap made of 1.5mm stainless steel V2A, brushed.
- Insertion from above, C4 crosswise. Even large letters fit in here without bending.
- Insertion flap made of stainless steel V2A 1.4301, ground with built-in damping element for very quiet closing.
- The insertion opening is equipped with a high-quality rubber seal all around.
- The removal door is also safely protected against moisture with sealing elements.
- With left-hinged door (lock on the right).
- The letterbox complies with DIN/EN 13724.
- High-quality, sturdy lock, side incl. 2 keys with key number.
- Incl. water protection plate/floor grate, so your mail always stays dry.
- Incl. mail holding plate, so the mail does not fall against you.
- Optional name inscription, lasered approx. 10-25mm high.
- Optional house number inscription, lasered approx. 50-60mm high.
- The columns are made of 40 mm x 40 mm stainless steel V2A, ground for screw mounting or for setting in concrete.
