Stainless steel surface-mounted mailbox Design BASIC 382A AP - 355x330x100 | 100mm depth | with 1 mailbox | Stainless steel, brushed

Product number 382A-VA-S1-V2A-100

Product description

Stainless steel surface-mounted letterbox design BASIC 382A AP

The complete surface-mounted letterbox is made of weather-resistant, polished stainless steel. The very high-quality workmanship and the well thought-out concept make this stainless steel letterbox our top seller. A rain drainage edge for optimum water protection, a double-edged throw-in flap with rubber bumper, the solid interchangeable nameplate, a practical post holder and the very robust lock characterise this stainless steel letter box, which is only available from us.

- Letter box made of weather-resistant stainless steel, polished.
- The system is manufactured by Briefkasten Manufaktur. German quality production "Made in Germany".
- The letter box complies with DIN/EN 13724. Insertion size (3.5 cm x 32.5 cm) for C4 landscape, large letters also fit in here without creasing.
- Insertion flap with noise-absorbing rubber buffers for very quiet insertion of mail.
- The door can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate under the flap and post holder.
- Large capacity thanks to optional letterbox depth +50 mm = approx. 17 litres. Suitable for companies and households with very high mail volumes.
- For wall mounting (incl. fixing material), optionally without rear perforation. Suitable for battery mounting.

Important information:

The mail is only protected from moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.

Stainless steel V2A must be maintained regularly and should not be used in salty areas. We recommend our maintenance oil for cleaning and care. See accessories.
