House number PREMIUM Design 691 - base plate stainless steel - house number RAL color- 2 digits

Choosing the right font is crucial for a house number. Optimal legibility is the first priority. However, the house number is also an important design element. An elegant base plate made of stainless steel V2A, polished with attached house number made of stainless steel V2A, powder coated in RAL color results in optimal legibility. Fixing is done with dowels and screws, which are enclosed. The screw heads are hidden with the enclosed caps made of stainless steel V2A, ground.

Made in Germany, manufactured in Bad Salzuflen, Germany

• 2-digit house number made of stainless steel V2A , ground and base plate made of stainless steel V2A, powder coated in RAL color.
• The attachment to the wall is very simple using the supplied screws and dowels.
• Incl. 4x screws cover caps made of stainless steel V2A, ground, so that the screws for fixing the front plate are not visible. See pictures.
• Digit height 11 cm. Font: "Arial". The indication of the font height refers to the versal height of the characters. Due to the font, individual characters may deviate from this. This is typographic standard and does not represent a defect.
• Base plate made of 1.5 mm stainless steel V2A, ground. Dimensions W 135 mm x H 360 mm.
• House number plates made of 2 mm stainless steel V2A , powder coated in RAL color. Dimensions W 75 mm x H 300 mm.
