Product number 385A-7016-15W

Product description

Wide surface-mounted mailbox system BASIC 385A for 15 households – RAL 7016 Anthracite Grey

The BASIC 385A surface-mounted mailbox system for 15 households is a robust wall-mounted solution for larger apartment buildings, residential complexes and commercial properties. The wider W version distributes the mail compartments across a multi-column front and keeps the overall system lower and more compact in proportion.

The mailboxes are made of galvanised steel and are powder-coated in RAL 7016 Anthracite Grey fine-textured matt. The close-fitting cladding with rain canopy unites the individual compartments into a continuous, modern surface-mounted system.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate beneath the insertion flap.

Advantages of the BASIC 385A surface-mounted system at a glance

Rain canopy and side cladding

The rain canopy and side panels combine the individual compartments into a continuous surface-mounted system. The coordinated cladding provides a calm front and a neat finish to the façade.

DIN C4 insertion and 12-litre volume

The 300 × 110 × 385 mm (W × H × D) mail compartments each offer approx. 12 litres of volume. The 35 × 265 mm insertion opening also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear allocation of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail simplifies installation; fixings with screws and wall plugs are included in the described configuration.

Durable surface in RAL 7016

The anthracite grey fine-textured surface gives the system a modern appearance and protects the galvanised steel for everyday use on the building. The system is manufactured in Germany at the Briefkasten Manufaktur.
