Product description

10-unit 5x2 stainless steel surface-mounted mailbox Design BASIC Plus 382XA AP - stainless steel V2A brushed

High-quality surface-mounted mailbox for 10 households made in Germany by Briefkasten Manufaktur.

The complete surface-mounted mailbox system is made of stainless steel V2A, brushed. The very high-quality workmanship and the well-thought-out concept make this mailbox system one of our top sellers. A rain drip edge for optimal water protection, a continuous rubber lip for quiet mail insertion, the sturdy interchangeable nameplate, a practical post retention bracket and the very robust lock characterise this surface-mounted mailbox system.

The mailbox systems of the BASIC Plus collection are characterised by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part installation and straightforward self-assembly. Spare parts are directly available for all BASIC Plus systems.

Thanks to the construction, self-assembly is straightforward. The mailbox system is prepared for uncomplicated complete installation; there is no need for labour-intensive wall mounting of individual boxes.
