10-unit 5x2 surface-mounted mailbox system Design BASIC 385A- VA AP - Stainless steel V2A, brushed | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | Stainless steel, brushed | with 10 mailboxes

Product number 385A-VA-10W

Product description

Wide surface-mounted mailbox system BASIC 385A for 10 households – brushed stainless steel V2A

The BASIC 385A surface-mounted mailbox system for 10 households is a robust wall-mounted solution for apartment buildings, residential complexes and commercially used properties. The wider W version distributes the compartments across a multi-column front and keeps the overall unit comparatively lower and more orderly.

The mailbox system is made from high-quality V2A stainless steel with a brushed finish. Mailboxes, cladding and canopy form a timeless, low-maintenance and robust stainless-steel unit.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys bearing a key number and an interchangeable nameplate beneath the mail slot.

The advantages of the BASIC 385A surface-mounted unit at a glance

Canopy and side cladding

The canopy and side panels join the individual compartments into a single surface-mounted unit. The coordinated cladding creates a calm front and a neat finish at the façade.

DIN C4 slot and 12-litre volume

The 300 × 110 × 385 mm (W × H × D) compartments each provide approx. 12 litres of volume. The 35 × 265 mm insertion opening accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure a clear assignment of each compartment.

Mounting rail for wall installation

The surface-mounted unit is designed for direct façade installation. A mounting rail facilitates assembly; fixing materials including screws and wall plugs are included in the described configuration.

Entirely in brushed stainless steel

The V2A version combines a high-quality metal surface with a robust construction for long-lasting surface-mounted mailbox systems. The unit is manufactured in Germany by the mailbox manufactory.

Equipment of the BASIC 385A mailbox system

Mailbox unit

Number of mailboxes 10 separately lockable compartments
Single compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per compartment
Material Stainless steel V2A 1.4301, brushed
Surface Stainless steel V2A 1.4301, brushed
Standard DIN EN 13724

Mail and operation

Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-damping rubber lip
Mail removal Front access
Door opening Opens from left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate below the mail slot

Cladding and wall mounting

Side cladding Close-fitting design
Canopy Solid canopy matching the unit
Installation type Surface-mounted wall installation
Installation aid Mounting rail
Fixings Screws and wall plugs included; check suitability for the on-site wall structure
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems, appropriate fixing solutions must be specified on site.

Briefkasten Manufaktur Lippe GmbH

Note on weather protection

Mail is best protected from moisture and dirt only when items are fully inserted and the flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

Product properties

Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Number of boxes	with 10 letterboxes
Surface/colour	Brushed
Mounting type	Surface-mounted
