9-compartment 2x5 stainless steel free-standing letterbox Design BASIC Plus 381X ST-R - stainless steel V2A polished

Modern free-standing letterbox for 9 parties - made in Germany by Briefkasten Manufaktur.

The complete mailbox system is made of weather-resistant stainless steel V2A 1.4301, ground. The very high-quality processing and the thought-out concept make this free-standing letterbox our top seller. A rain drainage edge for optimal water protection, a continuous rubber lip for quiet insertion, the solid interchangeable name plate, a practical mail holding bracket and the very robust lock characterize this free-standing letterbox. The side panel with protruding rain cover made of stainless steel V2A offers optimum protection against the weather and guarantees a very long service life.

The letterboxes of the BASIC Plus collection are characterized by the consistent use of stainless steel V2A. The result is a very high durability and sustainability. The design has been developed by our own engineers with a view to high flexibility or modularity, easy spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus units.

• 9-compartment free-standing letterbox made of stainless steel V2A, ground

- The system is manufactured at Briefkasten Manufaktur. German quality production "Made in Germany".
- The letterboxes comply with DIN/EN 13724. Insertion size (3.5 cm x 32.5 cm) for C4 crosswise, large letters fit in here without bending.
- Insertion flap with noise-damping rubber seal for very quiet insertion of mail.
- The door can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate (type 2) under the access flap and mail retainer.
- Large capacity due to optional mailbox depth +50 mm = approx. 17 l. Suitable for companies and households with very large mail volumes.
- Incl. side cladding + rain roof made of stainless steel V2A, ground.
- The stand elements / crossbar are made of 60.3 mm V2A stainless steel, polished for screw mounting or for setting in concrete.

Important information:

Mail is only protected from moisture and dirt when fully inserted and the flap is closed. In certain extreme weather conditions, water can still enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.
