The mailboxes of the BASIC Plus collection are distinguished by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy replacement-part installation and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

Thanks to the design, self-assembly is straightforward. The mailbox system is prepared for uncomplicated complete installation, so there is no need for complex wall mounting of individual boxes.
