2-unit surface-mounted mailbox system Design BASIC 385A- VA AP - Stainless steel V2A, brushed | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 2 letterboxes (1x2) | Stainless steel, brushed

Product number 385A-VA-2S

Product description

Narrow surface-mounted mailbox system BASIC 385A for 2 households – brushed stainless steel V2A

The BASIC 385A surface-mounted mailbox system for 2 households is a robust wall-mounted solution for semi-detached houses, houses with a granny flat and smaller office properties. The vertically organised S configuration reduces horizontal space requirements and utilises the available wall height particularly efficiently.

The mailbox system is made from high-quality stainless steel V2A in a brushed finish. Mailboxes, cladding and canopy form a timeless, low-maintenance and robust stainless steel unit.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approximately 12 litres of volume. The 35 × 265 mm letter slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate beneath the letter flap.

The advantages of the BASIC 385A surface-mounted system at a glance

Canopy and side cladding

The canopy and side panels unite the individual compartments into a single surface-mounted system. The coordinated cladding ensures a seamless front and a neat finish at the facade.

DIN C4 letter slot and 12-litre volume

The 300 × 110 × 385 mm (W × H × D) compartments each provide approximately 12 litres of volume. The 35 × 265 mm letter slot also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct facade installation. A mounting rail facilitates installation; fixings with screws and wall plugs are included in the described configuration.

Completely in brushed stainless steel

The V2A version combines a high-quality metal surface with a robust construction for durable surface-mounted mailbox systems. The unit is manufactured in Germany by Briefkasten Manufaktur.

Equipment of the BASIC 385A mailbox system

Mailbox system

Number of mailboxes 2 separately lockable compartments
Individual compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per compartment
Material Stainless steel V2A 1.4301, brushed
Finish Stainless steel V2A 1.4301, brushed
Standard DIN EN 13724

Mail and operation

Letter slot 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-dampening rubber lip
Mail retrieval From the front
Door opening Opens from left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the letter flap

Cladding and wall mounting

Side cladding Close-fitting design
Canopy Solid, matching canopy
Mounting type Surface wall mounting
Mounting aid Mounting rail
Fixings Screws and wall plugs included; check suitability for wall construction on site
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems (ETICS), appropriate fastening solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and dirt when items are fully inserted and the letter flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

Product properties

Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Number of boxes	with 2 letterboxes
Removal of mail	On the front
Surface/colour	Brushed
Mounting type	Surface-mounted
