Product number 385A-7016-19W

Product description

Wide surface-mounted mailbox system BASIC 385A for 19 households – RAL 7016 Anthracite grey

The BASIC 385A surface-mounted mailbox system for 19 households is a robust wall solution for larger apartment buildings, residential complexes and commercial properties. The wider W configuration distributes the mailboxes across a multi-column front and keeps the overall unit proportionally lower and visually clear.

The mailboxes are made of galvanised steel and are powder-coated in RAL 7016 anthracite grey fine-textured matt. The close-fitting cladding with weather canopy merges the individual compartments into a continuous, modern surface-mounted unit.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approximately 12 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate located under the mail flap.

The advantages of the BASIC 385A surface-mounted system at a glance

Weather canopy and side cladding

The weather canopy and side panels combine the individual compartments into a continuous surface-mounted unit. The coordinated cladding provides a calm front and a neat finish to the façade.

DIN C4 mail slot and 12-litre capacity

The 300 × 110 × 385 mm (W × H × D) mailboxes each offer approximately 12 litres of volume. The 35 × 265 mm mail slot also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip dampens the mail flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail simplifies installation; fixing material with screws and wall plugs is included in the described configuration.

Robust finish in RAL 7016

The anthracite grey fine-textured surface gives the system a modern appearance and protects the galvanised steel for everyday use on the building. The system is manufactured in Germany at the Briefkasten Manufaktur.
