Design mailbox with newspaper box Schiller Small VAR - stainless steel V2A powder-coated in RAL 7016 anthracite gray

Modern and very high-quality stainless steel design letter box for wall mounting with front panel made of 2mm thick stainless steel in RAL fine structure, matt powder-coated. The body and the newspaper box consist of 1.25mm thick stainless steel also completely in RAL 7016 anthracite gray fine structure, matt powder-coated. This is how optimal rust protection is given.

The dimensions enable a capacity of approx. 14 liters, the letting swing 305x35mm (Width x Height) from above guaranteed also with DIN-C4 envelopes and magazines or after several days of absence no crumpled mail. By throwing in from above, the internal post is optimally protected from weather influences. This wall letter box is designed in such a way that you keep your hands freely when opening, and the inner structure prevents the mail from falling towards you. The door lock side can be selected to match left-handers or right-handers so that one-handed operation is possible. The letter-in-case flap is secured with rubber cycling against disturbing rattles.

The total size of the mailbox body is 420x320mm (Height x Width). With its opening of 95x85mm (Width x Height), the newspaper box offers optimal space for all common newspapers. The newspaper box can be documented from the left and right, and the comfortable size can also accommodate large weekly sheets. The newspaper box is including the enclosed lid, so that one of the pages can be closed with this lid.

For each mailbox system, we deliver 2 keys by default.
