Stainless steel mailbox free-standing as a fence letter box DESIGNER Style BIG ST-P - RAL of your choice - withdrawal on the back

High-quality manufactured free-standing letterbox with rear removal of the brand letterbox manufacture with powder coating in RAL or DB colour. The letterbox is inserted from the front and the residents can remove the mail from the back. A real eye-catcher among letterboxes. Clear lines and a sleek design are the hallmarks of this designer letterbox.

As an option, we also offer high-quality laser inscription.

In the ST-P edition with a flush design. The elegant rectangular stands are made of solid 2 mm stainless steel V2A 1.4301, polished and optionally equipped with a 10 mm thick base plate for screw mounting.

Our products have a high quality, reliable functionality and their own identity. Made by Briefkasten Manufaktur.

- Designer stainless steel fence mailbox made of 2 mm stainless steel V2A, powder-coated.
- No visible screwing or rivets.
- Rear-side mail removal opening 240 mm x 300 mm, to be opened from top to bottom. Incl. 2 keys with key number.
- Post insertion from the front, dimensions insertion: W 35 cm x H 6.3 cm, C4 landscape. Very large letters fit in here without bending. Attention: no removal protection!
- With built-in damping elements, these allow the insertion flap to close slowly and quietly
- Optional name inscription, lasered approx. 10mm high.
- Optional house number inscription, lasered approx. 100mm high.
- Inside water protection plate. Close-fitting rain sheet enclosed.
- Incl. care cloths and mounting aid.
- The standsäule consist of W 20 mm x D 100 mm stainless steel V2A, powder-coated for setting in concrete or for screw mounting.

Important information:

In order to achieve optimum water protection for your mail, the letterbox or letterbox system should, if possible, be located under a canopy. If you are installing this system completely free-standing, it is recommended that you use a rain canopy. Close-fitting self-adhesive rain cover enclosed.

The mail is only protected from moisture and dirt when the insert is fully inserted and the flap is closed. In certain extreme weather conditions, water may nevertheless enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.
