4-unit freestanding mailbox system Design BASIC 385P-7016-SP with doorbell-intercom unit including side cladding & rain hood - horizontal mailboxes - Anthracite Grey RAL 7016 | RAL 7016 Anthracite grey, fine texture, matt | Top | with 4 mailboxes

Product number 385P-7016-4-SP

Product description

Freestanding mailbox system BASIC 385P with bell/intercom module for 4 households – RAL 7016 Anthracite grey

The freestanding BASIC 385P mailbox system for 4 households combines 4 separately usable mail compartments with an integrated bell function box. This brings together mail receipt, doorbell buttons and provision for a compatible door intercom system in a robust, visually unified entrance solution for apartment buildings, smaller residential complexes and commercial properties. The bell function box is directly integrated into the overall unit.

The mailboxes are made of galvanised steel and are powder-coated in RAL 7016 Anthracite grey fine texture matt. A close-fitting side cladding with rain canopy and integrated rain drainage channels support weather protection. The solidly manufactured stand elements made from anodised aluminium profile are also powder-coated in RAL 7016 Anthracite grey and form an especially stable, durable base for the freestanding system.

Each of the 4 mail compartments offers approx. 12 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait format. A noise-damping rubber lip reduces impact noise from the mail flap. Mail removal is from the front; the access doors open from left to right. Each mailbox is supplied with two keys with key number and a changeable nameplate located beneath the mail slot.

The benefits of the BASIC 385P mailbox system at a glance

Integrated bell function box

The unit combines 4 mailboxes with 4 stainless steel doorbell buttons and a speaker aperture with universal adapter. This creates a central, tidy solution for mail and visitor communication.

Solid aluminium stand elements

Solidly manufactured, anodised aluminium profiles form the stable base of the freestanding system. The powder-coated construction combines high load capacity with a durable finish for outdoor use.

DIN C4 mail slot with 12-litre volume

The mailboxes each provide approx. 12 litres of postal volume. The 35 × 265 mm mail slot accepts DIN C4 items in portrait format without larger envelopes needing to be unnecessarily folded.

Prepared for door communication

The speaker aperture with universal adapter is prepared for many commercially available flush-mounted speakers.

Robust BASIC quality in RAL 7016 Anthracite grey

Galvanised steel, stainless steel components, solid aluminium stand elements and German manufacture result in a resilient mailbox system for long-term use at the property entrance.

Equipment of the BASIC 385P mailbox system

Mailbox system

Number of mailboxes 4 separately usable mail compartments
Mailbox dimensions 300 × 110 × 385 mm (W × H × D) per compartment
Mail volume Approx. 12 litres per mailbox
Material Galvanised steel; side cladding and rain canopy made of stainless steel V2A
Finish RAL 7016 Anthracite grey fine-textured matt
Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Standard Mailboxes conforming to DIN EN 13724

Bell and intercom module

Bell function box Galvanised steel, powder-coated to match
Position Integrated into the unit
Doorbell buttons 4 round stainless steel doorbell buttons, type 4
Speaker aperture With universal adapter for commercially available flush-mounted speakers
Nameplate Made resistant to indentation and impact

Solid aluminium stand elements

Stand elements Solidly manufactured, anodised aluminium profile
Coating Powder-coated in RAL 7016 Anthracite grey
Installation options Either screw mounting or embedding in concrete
Screw mounting Stand elements selectable in 1200 or 1600 mm
Concreting in Stand elements selectable in 1600 or 2000 mm
Delivery condition Stand elements and mailbox system delivered divided for assembly
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note regarding the bell/intercom unit

The universal adapter is suitable for many commercially available flush-mounted speakers. Intercom system or flush-mounted speakers, power supply and cabling are not part of the described basic equipment and must be provided to suit the planned system.

Mounting on a foundation

For screw mounting a level and sufficiently load-bearing foundation is required. Fixings must be selected to suit the foundation, system weight and the local installation situation.

Concreting in

For the concreting-in version the extended aluminium stand elements are anchored plumb in a suitably dimensioned concrete foundation. Foundation size and embedment depth must be matched to ground conditions, system dimensions and local loads.

Note on weather protection

The rain canopy, close-fitting side cladding and rain drainage channels support weather protection. Postal items must be fully inserted so that the mail flaps can close completely. In extreme weather conditions, minor moisture ingress can occur despite standard-compliant construction.

Product properties

Material	Steel, galvanised, Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Series	BASIC
Number of bell push buttons	4 Taster
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Boxes by volume	Normal > 10 litres
Number of boxes	with 4 letterboxes
Name labelling	Nameplate
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey
Removal of mail	On the front
