Stainless steel front panel for flush mounting of GIRA System 106 - 5-compartment prepared

This front panel is used for flush mounting of the GIRA System 106. The Gira System 106 can be used seamlessly in a flush design. The preparation is intended for 5 pieces GIRA 106 system modules. The modules can be used flush-mounted due to the simple holding system (GIRA surface-mounted housing 5505910 required!).

- Front panel made of 2 mm stainless steel V2A 1.4301, 240 grain ground.
- Invisible fixing with bolts on the back.
- Recommended cut-out dimensions: H 465mm x W 145mm x D 50mm.
- Optionally vertical or horizontal, so that the grinding pattern of the GIRA modules is suitable.
- **WITHOUT GIRA system components!**

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Contact your trusted electrician for planning, mounting and installation.
